**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Allegheny Valley School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Allegheny Valley School District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Allegheny Valley School District, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, post-employment benefit information and pension information as shown in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Allegheny Valley School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2022, on our consideration of Allegheny Valley School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Allegheny Valley School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Allegheny Valley School District's internal control over financial reporting and compliance.

**Allegheny Valley School District  
Management's Discussion and Analysis  
June 30, 2021**

The discussion and analysis of Allegheny Valley School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Government Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for the State and Local Governments. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

**Financial Highlights**

Local revenues constitute the main source of funding for the School District. It constitutes almost sixty nine percent of funding for the School District. Local revenues increased by \$51,140 from prior year. The major contributors were tax revenue from real estate tax collections which increased by \$149,462, delinquent tax collections increased by \$43,244 and earned income tax collections decreased by \$27,244, and miscellaneous revenue decreased \$57,395, compared to the prior year.

The School District expenditures continue to rise by a modest \$83,371 without the corresponding increase in K-12 enrollment. Staff retirements and eliminating positions through attrition helped contain personnel costs but salaries and benefits still constituted sixty three percent of the expenditures. Retirement rates continued to increase at 34.51%, and other major cost drivers were special education at \$3.40 million, transportation costs of \$852 thousand and debt service costs of \$2.01 million.

In 2016-2017, the ACME construction project was financed with a bond issue and School District funds. The project was completed in the 2019-2020 school year. The School District transferred \$3,500,000 to the Capital Reserve from the General Fund. The School District ended the year with a fund balance of \$8,753,632 of which \$8,700,000 is assigned to defer costs towards future capital projects, healthcare expenditures and retirement contributions.

**Using the Annual Financial Report**

The Annual Financial Report consists of a financial section and a single audit section which issued to comply with federal guidelines as required in the Government Auditing Standards and the Uniform Grant Guidance. Within the financial statements are the management's discussion and analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can understand Allegheny Valley School District as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements - the statement of net position and the statement of activities. These provide both long-term and short-term information about the School District's overall financial status.

**Allegheny Valley School District  
Management's Discussion and Analysis  
June 30, 2021**

The remaining statements are fund financial statements that focus on individual parts of the School District's operations in more detail than the government-wide statements. The governmental funds statements tell how general School District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short and long-term financial information about the activities that the School District operates like a business. For this School District, this is our food service fund. Fiduciary fund statements provide information about financial relationships where the School District acts solely as a trustee or custodian for the benefit of others, to whom the resources in question belong.

The financial statements also include notes to explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the financial section are arranged and relate to one another:

Figure A-2 summarizes the major features of the School District's financial statements, including the portion of the School District they cover and the types of information they contain. **Overview of Financial Statements**

Government-Wide Statements

The government-wide statements report information about the School District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the School District's net position and how they have changed. Net assets, the difference between the School District's assets and liabilities, are one way to measure the School District's financial health or position.

Over time, increases or decreases in the School District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the School District, you need to consider additional non-financial factors, such as changes in the School District's property tax base and the performance of the students.

The government-wide financial statements of the School District are divided into two categories:

- **Governmental activities** - All of the School District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business type activities** - The School District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The School District's fund financial statements, which begin with Exhibit 3, provide detailed information about the most significant funds - not the School District as a whole. Some funds are required by state law and by bond requirements.

*Governmental funds* - Most of the School District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

*Proprietary funds* - These funds are used to account for the School District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the School District charges customers for services it provides - whether to outside customers or to other units in the School District - these services are generally reported in proprietary funds.

**Allegheny Valley School District  
Management's Discussion and Analysis  
June 30, 2021**

The food service fund is the School District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

*Fiduciary funds* - The School District is the trustee, or fiduciary, for student activity funds and scholarship funds. All of the School District's fiduciary activities are reported in separate statements of fiduciary net position on Exhibit 10 and statement of changes in net position on Exhibit 11. These funds are excluded from the School District's other financial statements as the funds cannot be used to finance its operations.

**Financial Analysis of the School District as a Whole**

The School District's total net position was a deficit \$(4,107,153) at June 30, 2021 and a deficit \$(5,248,659) at June 30, 2020.

Most of the School District's net position is invested in capital assets (buildings, land, and equipment). The remaining unrestricted net position is combined of designated and undesignated amounts. The designated balances are amounts set aside to fund future purchases or capital projects as planned by the School District.

The results of this year's operations as a whole are reported in the statement of activities on Exhibit 2. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the School District's activities that are supported by other general revenues. The largest general revenues are the local taxes (property and earned income) assessed to community taxpayers.

Table A-2 takes the information from that statement, rearranges it slightly, so you can see our total revenues for the year.

The tables below present the expenses of both the governmental activities and the business-type activities of the School District.

Table A-3 shows the School District's largest functions - instructional programs, instructional student support, administrative, operation and maintenance of plant, pupil transportation, student activities, community services, and interest on debt, as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

The statement of revenues, expenses and changes in fund net position for this proprietary fund shown on Exhibit 8 will further detail the actual results of operations.

**School District Funds**

At June 30, 2021, the School District's general fund reported a fund balance of \$8,753,632, which is the same as the prior year.

**General Fund Budget**

A schedule showing the School District's original and final budget amounts, compared with amounts actually paid and received, is provided in the required supplementary information section.

**Capital Assets and Debt Administration**

**Capital Assets**

At June 30, 2021, the School District's governmental funds had \$37,009,557 invested in a broad range of capital assets, including land, land improvements, buildings, furniture and equipment. This amount represents a net decrease (including additions, deletions and depreciation) of \$1,749,038, or 4.5% from last year.

Other obligations include capital lease obligations and accrued sick leave for specific employees of the School District. More detailed information about our long-term liabilities is included in the notes to the financial statements.

**Bond Rating**

The School District's general obligation bond rating assigned by Moody's is A1 underlying and an A3 enhanced rating. The Commonwealth of Pennsylvania also provides additional security for the bonds through the Act 150 School District Intercept Program. The Act provides for undistributed state aid to be diverted to bond holders in the event of default.

**Economic Factors and Next Year's Budgets and Rates**

Allegheny Valley School District is projected to continue to experience a modest increase compared to prior years in assessments, the majority resulting from an increase in commercial growth in one of the communities. The School District does not anticipate significant growth in the near future. Student enrollment has leveled off at approximately 940 students.

**Allegheny Valley School District  
Management's Discussion and Analysis  
June 30, 2021**

The School District is expected to operate within the Act 1 Index for the budget year 2020/2021. The School District, subsequent to year end has existing contracts with all three unions. The expiration of the professional staff (teachers) contract is June 30, 2022; the administrative assistants' contract is June 30, 2024; and the custodial staff contract is June 30, 2025. This helps with accurate projection of future salaries.

The comparison of revenue and expenditure categories is as follows:

Total Fund Balances - Governmental Funds \$ 16,898,964

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of assets is \$72,344,320, and the accumulated depreciation is \$35,334,763. 37,009,557

Property taxes receivable will be collected in the future, but are not available soon enough to pay for the current period's expenditures, and, therefore, are not reported as assets in governmental funds. 1,309,559

Premiums and discounts on bonds issued and refunded are capitalized and amortized over the life of the bonds in the statement of net position. (917,042)

Deferred charges on refunding bonds issued are amortized over the life of the bonds as deferred outflows of resources in the statement of net position. 479,389

Long-term liabilities, including bonds and capital leases payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

Bonds Payable	\$ (25,725,000)

Capital Leases Payable	(149,342)	
Compensated Absences	<u>(303,509)</u>	(26,322,427)

Year Ended June 30, 2021**

**Exhibit 6**

Total Net Change in Fund Balances - Governmental Funds \$ 1,936,159

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceed capital outlays in the period.

Depreciation Expense	\$ (1,780,487)	
Capital Outlays	<u>31,449</u>	(1,749,038)

Because some property taxes will not be collected within the current financial resources measurement focus period, they are not considered as "available" revenues in the governmental funds. Unavailable revenues decreased by this amount this year. (66,926)

Repayment of bond and capital lease payable principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 1,114,426

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balances. In the government-wide financial statements, however, issuing debt increases long-term liabilities in the statement of net position and does not affect the statement of activities. The proceeds were: (6,755,000)

In the statement of activities, certain operating expenses-compensated absences (sick pay and vacations) and other post-employment benefits (OPEB)-are measured by the amounts earned during the year. In governmental funds, however, expenditures for the items are measured by the amount of financial resources used (essentially, the amounts actually paid).

Compensated Absences	6,683	
Other Post-Employment Benefits - District	(18,338)	
Other Post-Employment Benefits - PSERS	<u>(3,368)</u>	(15,023)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

Net Change in Accrued Interest on Bonds		11,775
---	--	--------

Governmental funds report changes in investment derivative instruments only when those instruments provide or use financial resources. However, in the statement of activities, changes in the fair value of investment derivative instruments are changes in economic resources and are reported in each period in which there is a change in the fair value of the investment. This is the amount of the change in the fair value of investment derivatives in the current period.

60,569

The School District's bonded debt was also reduced by an advance refunding of debt. Resources of (\$6,803,765) were paid to the escrow agent for the advance refunding of outstanding bonds (\$6,760,000). The difference between those amounts was \$43,765 and will be amortized as an adjustment of interest expense in the statement of activities over the remaining life of the new debt.

6,803,765

Bond discount, premium and deferred charges on bonds are reported in the statement of revenues and expenditures of governmental funds as expenditures but are capitalized and amortized over the life of the bonds in the statement of activities.

Bond Premium	(182,892)	
Amortization of Discount, Premium and Deferred Loss on Refunding	87,520	(95,372)

Governmental funds report School District pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned is reported as pension expense.

District Pension Contributions to PSERS	2,834,315	
Cost of Benefits Earned	(3,035,883)	(201,568)

**Notes to Financial Statements**  
**June 30, 2021**

**Note 1 - Summary of Significant Accounting Policies**

Allegheny Valley School District, located in Allegheny County, Pennsylvania, provides public education, kindergarten through twelfth grade, to the residents of the Boroughs of Cheswick and Springdale and the Townships of Harmar and Springdale. The School District operates under a nine-person elected Board of Directors.

**A. Basic Financial Statements - Government-Wide Statements**

The School District's basic financial statements include both government-wide (reporting the School District as a whole) and fund financial statements (reporting the School District's major funds). The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of Allegheny Valley School District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. In the government-wide statement of net position, governmental activities are represented on a consolidated basis by column.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payment-in-lieu of taxes and other charges between various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**B. Basic Financial Statements - Fund Financial Statements**

Fund financial statements of the School District are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into three categories: governmental; proprietary; and fiduciary.

The emphasis in fund financial statements is on the major funds in the governmental category. Nonmajor funds are summarized in a single column. The nonmajor funds are combined in a column in the fund financial statements.

**1. Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and change in financial position (sources, uses, and balances of financial resources) rather than upon net income. The School District reports the following major governmental funds and fund types:

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

The *general fund* is the School District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital reserve fund*, a capital projects fund type, accounts for the resources accumulated from surplus monies in the general fund which is to be used for capital improvements.

The School District also reports the following nonmajor governmental fund:

The *capital projects fund* accounts for financial resources to be used for the acquisition of construction of major capital facilities or equipment (other than those financed by proprietary funds).

The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The School District reports the following proprietary fund type:

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity is financed with debt that is solely secured by a pledge of the net revenues. The activities reported in these funds are reported as business-type activities in the government-wide financial statements. The *food service fund* accounts for the revenues, food purchases and other costs and expenses for providing meals to students and/or faculty during the school year.

3. Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and are therefore not available to support School District programs. The reporting focus is on net position and changes in net position. The School District's fiduciary funds are presented in the fiduciary fund financial statements by type (pension trust funds, investment trust funds, private purpose trust funds, or custodial funds). The School District reports the following fiduciary fund types:

The *private purpose fund* is used to account for resources of monies contributed to the School District for scholarships. The scholarship funds are considered private purpose trust funds.

The *custodial fund* represents the School District's student activity funds. These funds account for student activities in the high school.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements and proprietary fund and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, intergovernmental revenues, interest, rent and certain miscellaneous income associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

The proprietary fund and fiduciary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

D. Joint Ventures

The School District is one of nine member school districts of the Forbes Road East Area Vocational-Technical School (“Forbes”). Forbes provides vocational-technical training and education to participating students of the member districts. Forbes is controlled and governed by the Joint Board, which is composed of all the school board members of all of the member districts. Direct oversight of Forbes’ operations is the responsibility of the Joint Committee, which consists of one representative from each participating school district. No member of the Jointure exercises specific control over the fiscal policies or operations of Forbes. The School District’s share of annual operating and capital costs for Forbes fluctuates, based on the percentage of enrollment of each member district in the school. The School District’s financial obligation to Forbes for the year ended June 30, 2021 was \$186,400 which has been reported in the School District’s general fund. The School District has no equity interest in Forbes as of June 30, 2021. Complete financial statements for Forbes can be obtained from the administrative offices at 607 Beatty Road; Monroeville, Pennsylvania 15146.

E. Cash and Cash Equivalents

The School District’s policy is to maintain cash balances in interest-bearing accounts such as money market or flex funds. The market values of the funds approximate cost. For purposes of the statement of cash flows, the proprietary fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F. Investments

Investments are stated at fair value except that treasury and agency obligations that have a remaining maturity at the time of purchase of one year or less are shown at amortized cost. Fair value is based on quoted market prices. Funds are invested pursuant to the Public School Code of 1949 and investment policy guidelines established by the School District and approved by the Members of the Board. The School Code states that authorized types of investments shall be: United States Treasury Bills; short-term obligations of the United States Government or its agencies or instrumentalities; deposits in savings accounts, time deposits or share accounts of institutions insured by the FDIC; obligations of the United States or any of its agencies or instrumentalities backed by the full faith and credit of the United States and the Commonwealth of Pennsylvania.

G. Budgets

The School Board approves, prior to the beginning of each year, an annual budget on the modified accrual basis of accounting for the general fund. This is the only fund for which a budget is required and for which taxes may be levied. The general fund is the only fund that has an annual budget that has been legally adopted by the School Board. The Public School Code allows the School Board to authorize budget transfer amendments during the year, but only during the last nine months of the fiscal year. There were no supplemental budgetary appropriations made during the year ended June 30, 2021.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

The final budget data reflected in the financial statements includes the effect of approved budget transfer amendments and for comparative purposes the actual amounts have also been presented. The School District expenditures may not legally exceed the revised budget amounts by function. Function is defined as a program area such as instructional services. Management may amend the budget without seeking prior approval of the Board within a function. Amendments between functions require prior Board approval. Excess of expenditures over appropriations in the general fund is presented in the required supplementary information section.

H. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds”. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

I. Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

Inventories in governmental funds are stated at cost by the first-in, first-out method. The purchase method is used to account for inventories. Under the purchase method, inventories are recorded as expenditures when purchased; however, an estimated value of inventories is reported as an asset in the general fund, if considered material. There was no material inventory balance as of June 30, 2021.

The inventory of the food service fund consists of food supplies and government donated commodities which were valued at estimated fair market value, and purchased commodities and supplies, both valued at cost using the first-in, first-out (FIFO) method. Any unused commodities donated by the federal government at June 30, 2021 are reported as unavailable revenue.

J. Prepaid Items

In both the government-wide and fund financial statements, certain payments to vendors reflect costs applicable to future accounting periods are recorded as prepaid items. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

K. Capital Assets

Capital assets, which include property, plant, equipment and land improvements are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$1,500 and an estimated useful life in excess of one year. Management has elected to include certain homogeneous asset categories with individual assets less than \$1,500 as composite groups for financial reporting purposes. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All reported capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Land Improvements	10
Furniture	7
Vehicles	5
Equipment	7
Computer Software	5

Proprietary fund equipment purchases are capitalized in the proprietary fund at cost and depreciated on a straight-line basis over 5-12 years.

**L. Long-Term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premium and discount are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premium and discount during the current period. The face amount of debt issued is reported as other financing sources while discount on debt issuances are reported as other financing uses.

**M. Compensated Absences**

The School District's policies regarding vacation and sick time is provided through various contracts. Employees can accumulate sick and/or vacation days which they are paid for upon retirement or termination of service. The amount the employee is compensated and the number of days varies based on their contract and their years of service. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the amount of reimbursable unused vacation or sick leave to employees who have terminated their employment as of the end of the fiscal year, while the proprietary funds report the liability as it is incurred.

**N. Defining Operating Revenues and Expenses**

The School District's proprietary funds distinguish between operating and nonoperating revenues and expenses. Operating revenues and expenses of the School District's food service fund consist of charges for meals and the costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as nonoperating.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The School District has various items that qualify for reporting in this category. One is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other in the government-wide statement of net position is related to the participation in the cost sharing defined benefit pension plan and other post-employment benefit plans.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. The School District has various items reported in the government-wide statement of net position relating to the cost sharing defined benefit pension plan and other post-employment plans. The School District also has items, which arise only under the modified accrual basis of accounting, which qualify for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as inflows of resources in the period that the amount becomes available.

P. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

Fund Statements - Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, fund balance reporting and governmental fund type definitions, the School District classifies governmental fund balances as follows:

Nonspendable - amounts that cannot be spent because they are either (1) not in a spendable form or (2) legally or contractually required to remain intact.

Restricted - the part of fund balance that is restricted to be spent for a specific purpose. The constraints on these amounts must be externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or by enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payments and includes a legally enforceable requirement on the use of these funds.

Committed - the portion of fund balance that can only be used for specific purposes as a result of formal action, approval of a motion by the majority of the School Board. Once the item is committed, it cannot be used for any other purpose unless changed by the same procedures used to initially commit the money.

Assigned - reflects the School District's intent to use the money for a specific purpose but is not considered restricted or committed. The assignment of fund balance can be assigned by management in the business office.

Unassigned - represents the part of spendable fund balance that has not been categorized as restricted, committed or assigned. The general fund is the only fund permitted to have a positive unassigned fund balance.

The School District's policy is that it considers restricted amounts to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. It also considers committed amounts to be spent first when an expenditure is incurred for purposes for which both committed and unassigned fund balance could be used.

The purposes of the restricted, committed and assigned fund balance as of June 30, 2021, are as follows:

1. The nonspendable fund balance in the general fund of \$5,945 is for prepaid items.
2. The assigned fund balance in the general fund of \$8,700,000 is assigned for future employer retirement costs of \$1,900,000, for future employer healthcare costs of \$1,100,000, and for future capital improvements of \$5,700,000.
3. The committed fund balance in the capital reserve fund of \$6,631,270 is committed for future technology capital expenditures of \$807,076 and for future capital projects of \$5,824,194.
4. The committed fund balance in the capital projects fund of \$1,514,062 is committed for future capital needs of the School District.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

**Note 2 - Deposits and Investments**

The deposit and investment policy of the School District adheres to state statutes and prudent business practice. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the School District.

**Custodial Credit Risk - Deposits**

Custodial credit risk is the risk that in an event of a bank failure, the government's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. Deposits in excess of amounts covered by the Federal Deposit Insurance Corporation are collateralized in accordance with Act 72 of 1971 of the Pennsylvania State Legislature which requires the institution to pool collateral for all governments and have the collateral held by an approved custodian in the institution's name. As of June 30, 2021, \$4,186,062 of the School District's bank balance of \$4,436,062 was exposed to custodial credit risk as follows:

Uninsured and Collateral Held by Pledging	
Bank's Agent not in the School District's Name	<u>\$4,186,062</u>

As of June 30, 2021, the School District had the following investments:

Investments	Fair Value
PLGIT	\$ 687,536
PSDLAF	<u>12,776,377</u>
	<u>\$ 13,463,913</u>

**Interest Rate Risk** - The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates except for its capital projects bond fund. This fund's investments in U. S. Obligations are permitted but only to the extent that the obligation is within six months from its retirement (due) date.

**Credit Risks** - The Pennsylvania Public School Code authorizes the types of investments allowed. These are described in Note 1F. The School District has no investment policy that would further limit its investment choices. The School District's investments in Pennsylvania School District Liquid Asset Fund (PSDLAF) and the Pennsylvania Local Government Investment Trust (PLGIT) were rated AAAM by Standard & Poor's.

Credit risk is the risk the School District will have exposure to a swap counterparty under the swap. Credit Risk is mitigated by several factors, including minimum credit rating criteria and ratings downgrade triggers in the swap documents. The credit ratings for the counterparty are noted above.

**Concentration of Credit Risks** - The School District places no limit on the amount it may invest in any one issue.

**Allegheny Valley School District  
Notes to Financial Statements  
June 30, 2021**

Investments

The Pennsylvania School District Liquid Asset Fund (PSDLAF) and the Pennsylvania Local Government Investment Trust (PLGIT) were established as common law trusts, organized under laws of the Commonwealth of Pennsylvania. Shares of the funds are offered to certain Pennsylvania school districts, intermediate units, area vocational-technical schools and municipalities. The purpose of the funds is to enable such governmental units to pool their available funds for investments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended.

PSDLAF and PLGIT are governed by an elected board of trustees who are responsible for the overall management of the funds. The trustees are elected from the several classes of local governments participating in the funds. The funds are audited annually by independent auditors. PSDLAF and PLGIT are local government investment pools and are exempt from the requirement with the SEC's Rule 2(a)7 of the Investment Company Act of 1940. The funds measure, for financial reporting purposes, its assets at amortized cost and maintain a stable net asset value of \$1 per share. Accordingly, the fair values of the position in PSDLAF and PLGIT are the same as the values of PSDLAF and PLGIT shares. There are no limitations or restrictions on withdrawals.

**Note 3 - Real Estate Taxes**

The elected tax collectors bill and collect real estate taxes on behalf of the School District based upon assessed values provided by the County. The School District's tax rate for all purposes in 2020/2021 was 20.8377 mills (\$20.84 per \$1,000 assessed valuation). The tax calendar for real estate taxes levied for 2020/2021 is as follows:

Tax Levy Date	July 1, 2020
2% Discount Period	Through August 31, 2020
Face Payment Period	September 1 - October 31, 2020
10% Penalty Period	November 1 Until Liened
Lien Filing Date	July 1, 2021

Taxpayers may also pay these taxes in three equal installments due at face on or before the following dates: August 31, October 31, and November 30.

The amounts shown as delinquent real estate taxes receivable have not been recorded as revenue on the fund statements. These taxes are, however, recorded as unavailable revenue on the balance sheet until they are received. The amounts reported for this receivable are reported on the balance sheet in the amount of \$1,309,559 along with other taxes receivable of \$227,524.

**Note 4 - Due from Other Governments**

Amounts due from other governments represent receivables for revenues earned by the School District. At June 30, 2021, the following amounts are due from other governmental units:

Food Service Fund	-	<u>372,511</u>
	<u>\$ 2,302,788</u>	<u>\$ 2,302,788</u>

Balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All the balances above are expected to be collected in the subsequent year.

**Note 7 - Interfund Transfers**

For the year ended June 30, 2021, interfund transfers consisted of the following:

<u>Transfers To</u>	<u>Transfer From</u> General Fund
Capital Reserve Fund	\$ 3,500,000
Proprietary Fund	
Food Service Fund	<u>157,527</u>
	<u>\$ 3,657,527</u>

The general fund made a transfer to the capital reserve fund in the amount of \$3,500,000 for future capital needs of the School District. The general fund made a transfer to the food service fund in the amount of \$157,527 to provide funds to support the food service operations.

	<u>\$25,725,000</u>	<u>\$ 5,664,903</u>	<u>\$ 31,389,903</u>

On July 29, 2020, the School District issued \$6,755,000 Series 2020 bonds with interest rates from 2.00% to 3.00% to currently refund the outstanding Series of 2013B general obligation bonds (\$6,760,000) with interest rates from 0.625% to 3.00%. The net proceeds of \$6,803,765 (after payment of issuance costs) were used to currently refund the above bonds and outstanding interest. As a result, those bonds are considered defeased and the liability for those bonds has been removed as a liability in these financial statements.

The School District currently refunded the 2013B Series bonds to reduce its total debt service payments over sixteen years by \$376,097 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of approximately \$370,302.

**Note 9 - Capital Lease**

The School District is currently obligated for the purchase of computer hardware through capital leasing arrangements.

The assets acquired through the capital leases are as follows:

**Note 10 - Public School Employees' Retirement System (PSERS)**

A. Summary of Significant Accounting Policies

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

B. General Information about the Pension Plan

1. Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at [www.psers.pa.gov](http://www.psers.pa.gov).

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

2. Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

3. Contributions

Member Contributions

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member’s qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member’s qualifying compensation. Membership Class T-E and Class T-F are affected by a “shared risk” provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

**Employer Contributions**

The School District’s contractually required contribution rate for fiscal year ended June 30, 2021 was 33.51% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School District were \$2,894,189 for the year ended June 30, 2021.

**C. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2021, the School District reported a liability of \$31,218,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System’s total pension liability as of June 30, 2019 to June 30, 2020. The School District’s proportion of the net pension liability was calculated utilizing the employer’s one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2021, the School District’s proportion was 0.0634%, which was a decrease of 0.0006% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2021, the School District recognized pension expense of \$3,090,061. At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 82,000	\$ 748,000
Net difference between projected and actual investment earnings	1,372,000	-
Changes in proportions	160,000	546,000
Difference between employer contributions and proportionate share of total contributions	64,672	-
Contributions subsequent to the measurement date	2,894,189	-
	<u>\$ 4,572,861</u>	<u>\$ 1,294,000</u>

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

\$2,894,189 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2022	\$ (212,795)
2023	(161,034)
2024	347,066
2025	<u>411,435</u>
	<u>\$ 384,672</u>

1. Actuarial Assumptions

The total pension liability as of June 30, 2020 was determined by rolling forward the System's total pension liability at June 30, 2019 to June 30, 2020 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 7.25%, includes inflation at 2.75%.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status of the benefits provided through the pension.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global public equity	15.0%	5.2%
Private Equity	15.0%	7.2%
Fixed Income	36.0%	1.1%
Commodities	8.0%	1.8%
Absolute return	10.0%	2.5%
Risk parity	8.0%	3.3%
Infrastructure/MLPs	6.0%	5.7%
Real estate	10.0%	5.5%
Cash	6.0%	-1.0%
Financing (LIBOR)	<u>-14.0%</u>	-0.7%
	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2020.

2. Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

3. Sensitivity of School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	(In Thousands)		
	1.00%	Current	1.00%
	Decrease	Discount Rate	Increase
	6.25%	7.25%	8.25%
School District's proportionate share of the net pension liability	\$ 38,623	\$ 31,218	\$ 24,944

4. Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at [www.psers.pa.gov](http://www.psers.pa.gov).

**Note 11 - Contingent Liabilities**

Allegheny Valley School District participates in a number of federally assisted grant programs, principal of which are Education Stabilization Fund and National School Lunch Program. The programs are subject to program compliance audits by the grantors or their representatives. The audits of some of these programs for and including the year ended June 30, 2021 have not yet been conducted. Accordingly, the School District's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the School District expects such amounts, if any, to be immaterial.

**Note 12 - Other Post-Employment Benefit Plan**

A. Plan Description

Allegheny Valley School District administers a single-employer defined benefit healthcare plan ("the Supplemental Health Plan"). The plan provides medical benefits for teachers and administrators/supervisors. The benefits provided are for the eligible retirees and their spouses through the School District group health insurance plan which covers both active and retired members. Benefit provisions are mostly established through negotiations between the School District and union or group representing the employees. The plan does not issue a publicly available financial report.

The eligibility and the benefits for each group are as follows:

1) Retirement Plan Eligibility

Normal Retirement	Age 62, age 60 with 30 years of service or 35 years of service.
Early Retirement	Age 55 with 25 years of Service.

2) Supplemental Health Insurance Plan (SHI)

Eligibility for Benefit

Teachers	Age 53 with 30 years, 55 with 25 years or age 62 or disability retirement.
Administrators	Age 53 with 15 years of service.
Support Personnel	Age 62 with 9 years of service.
Service Employees	Age 62 with 20 years of service or at time attained age plus service are at least 90.

**Notes to Financial Statements**  
**June 30, 2021**

Benefit at Retirement

Teachers

School District pays the premium for individual coverage for the medical insurance plan at time of retirement. For each year of service to the School District, the retiree will receive 3.5 months of SHI coverage at retirement. Retirees are permitted to purchase dental and vision insurance at group rates.

Administrators, Support Personnel  
and Service Employees

For employees hired after 12/31/1990, the School District pays the premium for individual coverage for the medical insurance plan at time of retirement until the retiree is age 65 or eligible for Medicare. Retirees are permitted to purchase dental and vision insurance at group rates. For employees hired before 01/01/1990, the School District pays the premium for husband/wife coverage for the medical insurance at the time of retirement until the retiree is age 65 or eligible for Medicare. Retirees are permitted to purchase dental and vision insurance at group rates. Any increases in rates after retirement are paid by the retiree.

Benefit Upon Death After  
Retirement

If the spouse dies while covered under the SHI, the School District will continue to pay up to the premium at retirement for the retiree. If the retiree dies prior to Medicare eligibility or before coverage would have expired under the Contract, the spouse is no longer covered under the SHI; however, the spouse will be eligible for coverage until the spouse reaches Medicare eligibility if the spouse pays for their coverage.

Continuation Coverage

If the retiree is not yet 65 or eligible for Medicare, but the retiree is no longer eligible for SHI, the retiree can purchase coverage until they are Medicare eligible. Retirees may continue medical coverage in the group health plan on a self-pay basis during any period in which the retiree is neither eligible for SHI nor Medicare.

At July 1, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	12
Active employees	<u>142</u>
	<u><u>154</u></u>

B. Total OPEB Liability

The School District's total OPEB liability of \$2,971,764 was measured at June 30, 2021, and was determined by an actuarial valuation as of July 1, 2020. Standard roll-forward techniques were used to roll-forward the liability from the valuation date to the measurement date using updated assumptions.

C. Significant Assumptions Used to Measure the Total OPEB Liability

Salary Increases	3.00%
Discount Rate	2.66%
Healthcare Cost Trend Rates	6.5% in 2020, grading down to 5.75% uniformly over 4 years and then following the Getzen model thereafter

D. Change in the Total OPEB Liability

A. Summary of Significant Accounting Policies

Other Post-Employment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

B. General Information about the Health Insurance Premium Assistance Program

1. Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate.

Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2020, there were no assumed future benefit increases to participating eligible retirees.

**Notes to Financial Statements**  
**June 30, 2021**

2. Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program

3. Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at [www.psers.pa.gov](http://www.psers.pa.gov).

4. Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2020, there were no assumed future benefit increases to participating eligible retirees.

Employer Contributions

The School District's contractually required contribution rate for fiscal year ended June 30, 2021 was 0.82% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the School District were \$70,822 for the year ended June 30, 2021.

C. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the School District reported a liability of \$1,368,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2019 to June 30, 2020. The School District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2021, the School District's proportion was 0.0633%, which was a decrease of 0.0007% from its proportion measured as of June 30, 2020.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

For the year ended June 30, 2021, the School District recognized OPEB expense of \$70,384. At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 13,000	\$ -
Net difference between projected and actual investment earnings	2,000	-
Change in assumptions	56,000	30,000
Changes in proportions	16,000	34,000

Contributions subsequent to the measurement date	<u>70,822</u>	<u>-</u>
	<u>\$ 158,756</u>	<u>\$ 64,000</u>

\$70,822 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30,	
2022	\$ 3,384
2023	3,325
2024	2,232
2025	9,993
2026	3,000
Thereafter	<u>2,000</u>
	<u>\$ 23,934</u>

1. Actuarial Assumptions

The total OPEB liability as of June 30, 2020 was determined by rolling forward the System's total OPEB liability at June 30, 2019 to June 30, 2020 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 2.79%, S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
  - Eligible retirees will elect to participate pre age 65 at 50%.
  - Eligible retirees will elect to participate post age 65 at 70%.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2018 determined the employer contribution rate for fiscal year 2020.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	50.3%	-1.0%
US Core Fixed Income	46.5%	-0.1%
Non-US Developed Fixed	<u>3.2%</u>	-0.1%
	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2020.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

2. Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.66%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.66% which represents the S&P 20 year Municipal Bond Rate at June 30, 2020, was applied to all projected benefit payments to measure the total OPEB liability.

3. Sensitivity of System Net OPEB Liability to Change in the Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2020, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2020, 93,693 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2020, 688 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2020, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if its health cost trends were 1 percentage point lower or 1 percentage point higher than the current rate:

	(In Thousands)		
	1.00%	Current	1.00%
	Decrease	Rate	Increase
System net OPEB Liability	\$ 1,559	\$ 1,368	\$ 1,209

4. Sensitivity of School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 2.66%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.66%) or 1 percentage point higher (3.66%) than the current rate:

	(In Thousands)		
	1.00%	Current	1.00%
	Decrease	Discount Rate	Increase
	1.66%	2.66%	3.66%
School District's proportionate share of the net OPEB liability	\$ 1,368	\$ 1,368	\$ 1,368

5. OPEB Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at [www.psers.pa.gov](http://www.psers.pa.gov).

**Note 14 - Risk Management**

The School District is one of forty-six members of the Allegheny County Schools Health Insurance Consortium (Consortium) which purchases health benefits on behalf of participating public school districts. The School District is billed monthly based on employee count and coverage information at rates established by the Consortium at the beginning of each fiscal year. As the Consortium is self-insured, rates are established with the objective of satisfying estimated claims and other costs, as well as maintaining working capital requirements. Contributions to the Consortium totaled \$2,179,450 and \$2,204,895 for the years ended June 30, 2021 and 2020, respectively.

Participating school districts are permitted to withdraw from the Consortium under terms specified in the agreement. Withdrawing participants are entitled to or responsible for a proportionate share of the Consortium net position or deficiency in net position, respectively, as determined on the fiscal year-end date after withdrawal. As of June 30, 2021, the net position of the Consortium was \$63,689,030 of which \$446,874 is attributable to the School District.

The School District participates in an insurance program offered by a commercial insurance company. It purchases commercial insurance policies for risks of losses for casualty, workmen's compensation and liability claims.

The School District is exposed to various risks of loss related to tort; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. These risks are covered by commercial insurance purchased from independent third parties.

Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

**Note 15 - On-Behalf Payments**

The amounts recognized for revenues and expenditures for on-behalf payments relating to fringe benefits for the year ended June 30, 2021, was \$1,844,950.

This includes \$1,504,234 recognized for revenues and expenditures relating to pension contributions for its employees that the Commonwealth of Pennsylvania paid to the Public School Employees' Retirement System (PSERS) for pension and \$340,716 to the federal government for social security and Medicare taxes for the year ended June 30, 2021. The School District pays these on-behalf payments directly to PSERS and the government and is reimbursed by the Commonwealth for their appropriate share.

**Note 16 - Commitments/Contingencies**

The COVID-19 pandemic has continued to impact the School District. During the year ended June 30, 2021, the School District incurred additional expenses related to mitigating the effects of the pandemic on staff and students. The ultimate outcome cannot be determined at this time. The School District's staff will continue to monitor operating results to mitigate any financial impact that may occur.

**Allegheny Valley School District**  
**Notes to Financial Statements**  
**June 30, 2021**

As a response to COVID-19, the Coronavirus Aid, Relief, and Economics Security (CARES) Act, the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act and the American rescue Plan (ARP) Act were enacted by Congress to provide budgetary relief to educational agencies. This funding is reflected in these and in future financial statements.

**Note 17 – Prior Period Restatement**

As a result of the implementation of GASB Statement No. 84 “*Fiduciary Activities*”, the School District made a prior period adjustment to record net position for its Custodial Fund within its fiduciary activities. This prior period adjustment and its effect on net position at July 1, 2020 was an increase in Custodial Fund net position of \$36,002. Prior to the implementation of GASB Statement No. 84, custodial fund assets equaled liabilities and did not involve measurement of results of operations.

**Note 18 – Swap Sale**

On February 17, 2021, the School District sold their Interest Rate Swap. The School District paid \$21,800 in the sale of their Interest Rate Swap.

**Note 19 - Subsequent Events**

On September 21, 2021, the School District issued general obligation bonds Series of 2021 in the amount of \$8,750,000 to partially refund the general obligation bonds Series of 2016 in the principal amount of \$8,780,000.

**Independent Auditor's Report on Internal Control Over Financial Reporting  
and on Compliance and Other Matters Based on an Audit of Financial  
Statements Performed in Accordance with *Government Auditing Standards***

Members of the Board  
Allegheny Valley School District  
Cheswick, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Allegheny Valley School District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Allegheny Valley School District's basic financial statements, and have issued our report thereon dated January 25, 2022.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Allegheny Valley School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Allegheny Valley School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Allegheny Valley Area School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Allegheny Valley School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program**

We have audited Allegheny Valley School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Allegheny Valley School District's major federal programs for the year ended June 30, 2021. Allegheny Valley School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Allegheny Valley School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Allegheny Valley School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Allegheny Valley School District's compliance.

***Opinion on Each Major Program***

In our opinion, Allegheny Valley School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

**Report on Internal Control Over Compliance**

Management of Allegheny Valley School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Allegheny Valley School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Allegheny Valley School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Note A - Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Allegheny Valley School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Allegheny Valley School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of Allegheny Valley School District.

**Note B - Summary of Significant Accounting Policies**

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Allegheny Valley School District has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**Note C - Source Code**

The Source Code (I) indicates funds received indirectly.

**Note D - Reconciliation with Subsidy Confirmation**

Amounts Received Per Schedule	\$ 1,325,842
Less: Commodities Received	(19,696)
Less: Passage Through AIU	(150,863)
